THE ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR THE BALD AND GRAY.

MANY, since the greaf discovery of Prof. Wood, have attempted not only to imit, te his restorative, but process to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wenderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless have been forced to leave the field to its resistions sway. Rend the following:

BATH, Maine, April 18th, 1859.

PROF. O. J. WOOD & Co.; Gents.:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewere, has given rise to numerous enquiries touching the facts in the case. The enies are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrifty, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the sub-stance is washed off by frequent ablution of the face, when if care were used by wiping the face in close connection with the whiskers, the same result will follow as the bair. I have been in the receipt of a great number of letters from all parts of New Engiand, asking me : (my hairstill continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has no doubt been easely imitated and been used not only without any good effect, but to absolute injury. I have not used any of your Restorative

of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray bair in my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful: I gave it to my friends and thereby induced them to try it, many were skeptical until after trial, and I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not fellow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty as heretofore, to keep you app, ised of the continued effect on my half as I assure all who enquire of me of my unshakes pinion of its valuable results. I remain, dear str.

MHERS

In presenting you with DR. ETON'S INFANTILE COEDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them. Secondly—It is entirely free from paragoris or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation, viz:

other preparation, in:

For all Complaints attending Teething;
such as Dysentery, Colic, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is sure relief. For Croup, the most fatal and trying of diseases, it can be recied on with perfect confidence; and being a powerful anti-spaemodic in all cases of complaines or fits.

schools of a grade sufficiently high to meet their wants. For securing this end every facility has here been provided. The Courses of Study are three, Primary, Prepara atory and Collegiate. To each of these the range of studies is such as will impart the most thorough discipline and yet be sufficiently extended to meet the wants of all.

In the selection of Teachers, regard is paid to their experience as well as Education. None are employed but such as have in other positions shown bemselves thoroughly efficient. The Musical and Ornamental Departments are fully organized under experienced Teachers and are supplied with every appliance necessary for their successful maintenance.

A new and stensive Chemical and Philosophical Apparatus, besides numerous Charts and Maps, and other Means of illustration are possessed by the Institute. Each year additions are made, so that, though its means of illustrating the different Sciences are not now surpassed by any similar institution, they are becoming continually more extended.

Connected with the Institute is a flourishing Literary Society, possessing a Library of several hundred volumns of choice standard works accessible that it works are

short notice. The Gold and Silver Medals again wo by the Chickerings.

The Massachusetts Charitable Mechanic Association, as the ninth triennial exhibition, in Boston, 1850, have, as usual, awarded the highest bonors, in the piano forte department, to Messrs Chickering & Sons—the highest premium, the gold medal, for the best grand, semi-grand and square, and a silver medal for the upright, or cottage piano.—Piano fortes, we may as well remark, have no where in the country to stand a severer test than at this exhibition; and to carry away its highest awards is a feather in the cap of the manfacturer, of which they may well feel proud.

VALUABLE PLANTATION FOR SALE
I OFFER for sale my "Athlone" place, situated,
in Wilkinson county, Miss, about 13 % miles
from Woodville and 22 from Natches, on the lower
Woodville and Nathes road, between the Buffale
and Homochitto. It is some 12 miles from Hutchins' landing on the Mississippi; is some four or
five miles in a direct line from that river; and
when the Homochitto is opened it will be within
two miles of navigation. It contains about 1500
cores of very fine land, a great deal of it bottom
land, is plentifully timbered, and affords as fine
pasture as can be found in the country. About 300
acres are now in cultivation. The improve ments
consist of dwelling house, gin-house, quarters, com
cribe, stable &c. The neighborhood is good and
healthy. Possession given 1st of January.
